

Lead Retrieval Made Social

Meet the world's first and only socially-enabled lead retrieval app. Attendify Leads enables you to collect real-time event data and gives you instant access to the most engaged attendees - sign up today!

Reasons to Love Attendify Leads

It's easy to use

No special equipment is required. Attendify Leads downloads to your existing smartphones or mobile device, hardware you're already familiar with.

It's completely customizable

Create unique surveys for attendees using your own qualifying questions to help booth staff guide their conversations and gain insight for effective follow-ups.

It includes social engagement

Go beyond capturing basic contact information. Receive real-time social notifications each time your leads share content so you can engage directly.

It gives you deep analytics

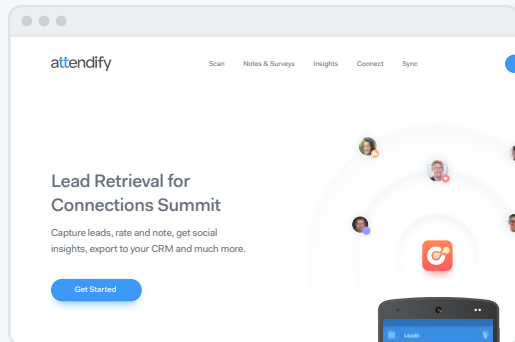

See comprehensive lead data in the exhibitor portal. You can also track individual team member performance in order to optimize lead collection.

Getting Started with Attendify Leads

STEP 1

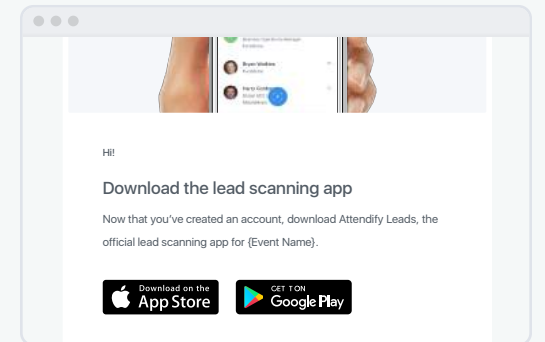

Create an Attendify account and download the app

The event organizer will email you the Attendify Leads invite. Follow the link to create your Attendify account.

Enter your company info and create a password. This is the info you will use to access your Attendify Leads App.

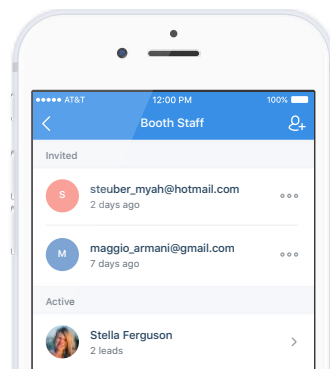

Download Attendify Leads on your mobile device using the links provided or by scanning the QR code below.

STEP 2

Invite your Team

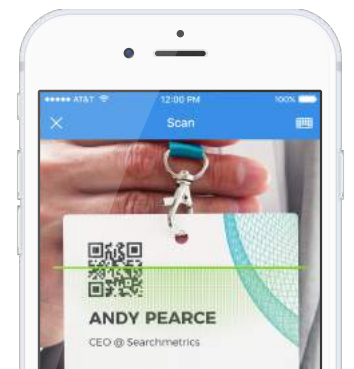

Adding team members is simple - send out email invites right from the app or the exhibitor dashboard.

STEP 3

Scan Leads

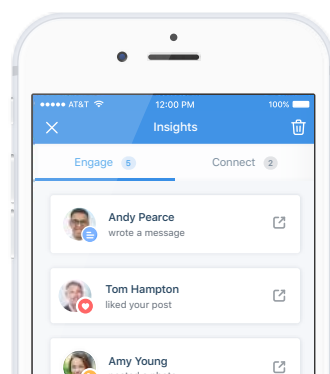

Scan leads quickly by capturing QR codes. You can also enter leads manually using a form.

STEP 4

Get Social Insights

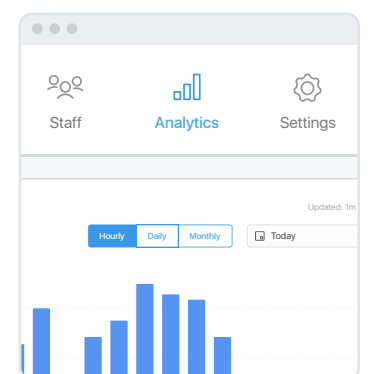

Enable Social Insights and we'll notify you every time one of your leads posts or engages with social content.

STEP 5

See Deep Analytics

Track lead engagement and team performance with real-time analytics in the exhibitor dashboard.
